**COWANS SHELDON**

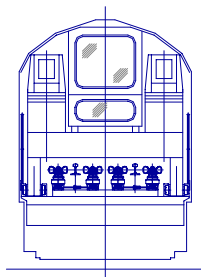

## Track Maintenance Rail Delivery & Recovery System RDS-288

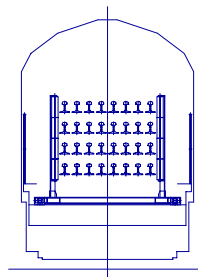

The Cowans Sheldon Rail Delivery System RDS 288 has a capacity to deliver 32 – CEN 60 Rails in a 3 hour possession period. The system is designed to support a range of rails and lengths of 144, 180, 216 and 288 metres long. The design is modular to support the use of standard container flat wagons using simple proven, reliable and maintainable technology. Roller drive and guidance system deposit the rail safely to the trackside for later change by the rail gangs.
