

OPEN TO INTERNAL AND EXTERNAL APPLICANTS

VACANCY
GATESHEAD SITE
QC/QA ENGINEER

Reporting the QC Manager, the main duties of the QC/QA Engineer will include, but will not be limited to:

- Expedite and review sub-contractor/supplier quality procedures; review of MQP's (Manufacturing Quality Plan), Expedite and inspect/inspection surveillance manufactured/supplied items.
- Compile internal CCM MQP for machining, assembly, fabrication and painting etc. to meet PQR (Project Quality Requirements) requirements and monitor MQP activities.
- Expedite and review verifying documentation e.g. certificates, reports etc.
- Compile formal MLQR (Manufacturing Lifetime Quality Records), to pre-determined requirements, for customer review and acceptance.
- Compile and follow up of NCRs.
- Arrange 3rd party Inspections as stated in MQPs when/as required.
- Assist in other areas of the QA/QC department as directed by line manager.
- Flexibility to conduct any other duties within your capabilities as directed by line management. i.e., support of QC inspections at CCM and Sub Contractors.

The position will be based at the Gateshead office with a requirement to travel to inter-company / suppliers / customer sites within the UK.

Key accountabilities of the QC/QA Engineer:

- Control all expediting, internal and external inspections.
- Support functional management and liaise with Suppliers/Clients.
- Ensure documentation packages are compiled in a timely manner.

Qualifications and Certification required:

- Nationally recognised Quality Control Certification or previous experience in QA/QC.
- Good standard of education
- Time served apprenticeship in an appropriate discipline would be advantageous
- Full valid driving licence

Experience and key competencies required:

Must have:

- Understanding and working knowledge of MQP and LTQR requirements based on customer PQRs and manufacturing standards.
- Knowledge and experience of required certification i.e. Material, NDT, Painting and Welding certification.
- Working Knowledge of relevant British Standards.
- Working Knowledge of Engineering Drawings

Ideally to have:

- QC/QA experience in a medium/heavy engineering environment.
- Excellent IT skills Word, Excel etc.
- Excellent communication skills
- Welding/NDT experience an advantage
