**INTERNAL & EXTERNAL APPLICANTS WELCOME**  
**CAREER OPPORTUNITY**  
**VACANCY**  
**CLARKE CHAPMAN FACILITIES MANAGEMENT LTD**  
**YORK**  
**WELDER/SERVICE ENGINEER**

**JOB DESCRIPTION**

Responsible to the Supervisor at the relevant site, the primary role will be to undertake all welding activities required on rail vehicles and associated equipment.

When no welding or fabrication work is required, the Welder/Service Engineer must be able to assist other maintenance staff working on and maintaining diesel engines, associated equipment which may encompass hydraulic, electrical and electro/mechanical systems.

The position will require working in all types of weather conditions as well as unsociable hours, either at the York depot or at various other locations in the UK.

A full job description outlining the main duties of the role will be supplied with the application pack.

**EXPERIENCE AND KEY COMPETENCIES:**

Must have:

Knowledge, experience and competence in welding to BS EN ISO 9606-1:2017.

Ideally will have:

- A comprehensive welding/engineering background.
- Experience of rolling stock maintenance and repairs.
- Working knowledge of ISO 9002 Quality Systems and ISO 14000 series Environmental Practice.
- Experience of electric, plc, hydraulic, pneumatic, mechanical and diesel equipment would be an advantage.
- Ability to maintain, identify and source problems and to provide requisite repair.
- Knowledge of customer care practices.
- Good communication skills.
- Working as part of a multi-disciplined team.

**QUALIFICATIONS**

- Served a recognised Apprenticeship in an engineering discipline.
- Coded Welder.
- Good basic level of English Maths.
- Full valid driving licence.  
PTS (full training will be provided)
