

JOB DESCRIPTION

Responsible to the Assistant Operations Manager. This position will be a "hands on" role and will involve the undertaking of fitting duties together with supervisory responsibilities.

Fitting responsibilities will include but not limited to:

- To undertake the maintenance and repair of rail freight wagons and associated equipment at Network Rail modular S&C in Beeston and occasionally at other Network Rail sites and depots throughout the UK.
- Carryout maintenance activities in accordance with company and customers standards and procedures.
- Investigate failures, diagnose faults and undertake rectification to prevent recurrence of problem.
- Reporting all maintenance faults and repairs in accordance with company and customers procedures and standards.

Supervisory responsibilities will include but not limited to:

- To lead and direct a team of skilled operatives undertaking preventive and reactive maintenance of Rail equipment within a specifically designated area of responsibility of the contract.
- Monitor quality and performance levels in relation to pre-set standards, plans and objectives and initiate timely remedial action when appropriate.
- Provide a weekly on call back up service, which is rostered between the Manager and other Supervisors.
-

EXPERIENCE AND KEY COMPETENCIES:

Ideally to have:

- A comprehensive engineering/maintenance background.
- Experience of rolling stock maintenance and repairs.
- Working knowledge of ISO 9002 Quality Systems and ISO 14000 series Environmental Practice.
- Experience of electric,plc, hydraulic, pneumatic, mechanical and diesel equipment would be an advantage.
- Ability to maintain, identify and source problems and to provide requisite repair.
- Knowledge of customer care practices.
- Good communication skills.
- Working as part of a multi-disciplined team.

QUALIFICATIONS

- Served a recognised Apprenticeship in an engineering discipline and will have achieved a minimum of NVQ Level 3 diploma or equivalent.
- Full valid driving licence.
