CLARKE CHAPMAN FACILITIES MANAGEMENT LIMITED (CCFM)

LOCATION

BEESTON

JOB TITLE

SERVICE ENGINEER X 3

JOB DESCRIPTION

Responsible to the Depot Supervisor, the main duties of this position will be:

- Operate the S&C (Switch and Crossing) wagons during possessions on the Network Rail infrastructure throughout the UK, in accordance with company and customer procedures and standards
- Report any faults and operational issues during possessions in accordance with company and customer procedures and standards
- To undertake the maintenance and repair of rail freight wagons and associated equipment at Beeston depot and at other Network Rail sites and depots throughout the UK.
- Carryout maintenance activities in accordance with company and customers standards and procedures.
- Investigate failures, diagnose faults and undertake rectification to prevent recurrence of problem.
- Reporting all maintenance faults and repairs in accordance with company and customers procedures and standards.
- Working in all types of climate conditions following rail delivery units.

A full job description will be issued with requests for an application pack.

EXPERIENCE

Ideally to have:

- A comprehensive engineering/maintenance background.
- Experience of rolling stock maintenance and repairs.
- Working knowledge of ISO 9002 Quality Systems and ISO 14000 series Environmental Practice.
- Experience of electrical and mechanical equipment would be an advantage.
- Ability to maintain, identify and source problems and to provide requisite repair.
- Knowledge of customer care practices.
- Good communication skills.
- Working as part of a multi-disciplined team.
- Experience of working on the Network Rail infrastructure would be an advantage. PTS preferable but not essential.

QUALIFICATIONS

Served a recognised Apprenticeship and qualified to City and Guilds (or NVQ level 3) in an engineering discipline.

Full valid driving licence.
